Roy Esser
Assistant Principal

November 29, 1977

Dear Dr. Wrone:

I am writing regarding the Howard Roffman tapes produced from the Symposium at Stevens Point in November of 1976.

On November 22, 1977, I held an open house to parents of the school district. We had just over 40 parents and students in attendance and many requests for a reshowing because of a home basketball game at this school the same night.

The reaction of those in attendance was overwhelmingly in support of the point of view presented by Howard Roffman. Reaction varied from disbelief and frustration to mild outrage. One man in attendance inquired about a possible petition or other action which he might take. There have been a minimum of fifteen (15) people who have requested a reshowing and this will be done in 2 weeks.

Thank you again for all your help and encouragement. If there is something I can do for you sometime, please let me know.

Respectfully,

F. Clarland
